Thattikere and Mangalvarpet etc., by means of a mud conduit running from the tank to the fort. Great inconvenience is caused to the people of other parts, who have to go a great distance to fetch water. This tank does not contain a sufficient supply of water. If rains fail for one or two years, the tank will dry up. It is requested that the capacity of this tank may be increased and the bund etc., strengthened in proportion and the water supplied to the town by laying cast iron pipes at certain places, or Seshiah's tank may be improved and the water of that tank may be reserved to supply Kudineer Katte when it fails.

Reply of Government.—The matter will be investigated.

Subject No. 352.

Construction of a musafirkhana at Channapatna.

Mr. Nanjundaiya.

Summary of Representation.—This town has a large population. There is no accommodation for travellers. The construction of a musafirkhana is necessary as great difficulty is felt by travellers especially of the merchant class, this being a place of silk industry.

Reply of Government.—Matter for District Board.

Subject No. 353.

Appointment of Muzrai Gumasta to the Channapatna Taluk.

Mr. Ranga Iyengar.

Summary of Representation.—As there are 24 institutions and 3 Chattrams, 1 Makan and 1 Masjid in the Channapatna Taluk and as there is an annual expenditure of 32,000 rupees in connection with these, the appointment of one gumasta on Rs. 10 is necessary to carry out the work promptly and efficiently.

Reply of Government.—Noted.

Subject No. 354.

Amalgamation of the Sri Jayalakshmammanni Girls' School with the Government Girls' School.

Mr. Nanjundaiya.

Summary of Representation.—The amalgamation of the Sri Jayalakshmammanni Girls' School with the Government Girls' School is necessary, as the inhabitants can no longer bear the cost of this school. If this be done, the school-going population will increase as Channapatna Town is a large one.

Reply of Government.—Will be enquired into and a report called for.

Subject No. 355.

The restoration of a tank near Nerlur.

Mr. Nanjundaiya.
„ Ranga Iyengar.

Summary of Representation.—The restoration of a tank near Nerlur would bring a large extent of dry lands under wet cultivation. This is recommended in the interest of both the raiyats and the Government.

Reply of Government.—The Chief Engineer states that the necessary Surveys have been taken and further investigation is being proceeded with and that preliminary report has been called for from the Executive Engineer.

Subject No. 356.

The restoration of major tanks

Mr. Ranga Iyengar.

Summary of Representation.—The restoration of major tanks in the taluk has been greatly neglected by the Public Works Department. Sometimes they are partly restored and before completion handed over to the Revenue Department for maintenance. Then the burden of up-keep is thrown on the raiyats. Early steps should be taken for rectifying this state of affairs.
